Subject: Johnathon Elis - Argus Leader Newspaper, SD - Dewey Burdock

Hi All,

Received a call from Johnathon Ellis with the Argus Leader Newspaper in Sioux Falls, SD. He is calling in regards to the recent PA/SI report that was released for the Dewey Burdock site and the potential consideration for listing the site on the NPL. He also is aware of Powertech's interest in using in-situ leaching to mine for uranium in the area and is wondering what the impacts of an NPL listing will have on their interests. He would also like a status on the permit approval for Powertech to be able to do in-situ leach mining. I'm not sure which EPA Program would be looking at the permit, if any? He is under no time constraints at the moment. I told him we would get back to him by tomorrow. He was fine with that. Rich is out today but has been checking emails when he can. Since this sounds like a cross program inquiry Rich do you want to coordinate it on your end? At most our program is aware of what Dania is doing in SD but are not directly engaged with the exception of any CIC support Chris may be providing on an as needed basis.

Thanks, Libby
